

I am writing in regards to the current situation with the radio station, Air 1. Air 1 serves me as a resident of Amarillo, Texas by providing an excellent radio station. Air 1 gives helpful advice, offers a commercial free station, and provides great, uplifting music. It is a positive radio station for every community.

Air 1 has done a lot for the community. It not only has strengthened Amarillo but has the ability of bringing the community together due to the positive nature of the station. Taking Air 1 off the air would be a negative step to take. Unlike most radio stations, Air 1 is a station in which all ages can listen. There is nothing negative, crude, or inappropriate on Air 1. Other radio stations can be crude and inappropriate for young listeners. With Air 1, you do not need to worry about children or young adults listening. It is also positive and uplifting music, unlike the other radio stations. I know for a fact, from listening to Air 1, that this station has impacted thousands of peoples' lives, including mine.

Air 1 is all about helping people by giving good advice. This is definately in the public's interest. In fact, I cannot think of any other radio station in Amarillo that is in the public's interest. Other stations are only for entertainment. Air 1 has different motives, motives that count. I prefer Air 1 over any radio station because it is here to serve the public and to help those in need. Thousands of people as well as myself, will refuse to listen to another station if it is to change from Air 1.

Air 1 is a blessing to the world. The world needs something positive, just like Air 1. Thank you.
